Interlox Table System Specifications

Wood Core: 1-1/16" MDF core, medium density. Threaded metal inserts (4-per leg) are factory mounted into the top for receiving leg bolts. Steel tube stretchers are factory attached to all tables 60" or longer.

Laminate Top: Laminate top with Armadillo-Edge™ and three-ply construction. High pressure laminate and backer are 'fused' to the MDF base using a glue web formulation that is clean, environmentally safe, and extremely consistent. Designed with the highest chemical equilibrium - softness vs. hardness, toughness vs. longevity, durability vs. impact.
