- Premium Quality
- Welded 16ga Foot Ring
- 18 Gauge Legs

- 14 Gauge Under Structure
- Lifetime Frame Warranty
- Dual Screw Adjustability

Stool Specifications

Frame: 1.125" diameter, 18-gauge legs welded to 9" x 9", 14-gauge plate. The 3/4", 16-gauge footrest is welded to the legs to form a rigid integral unit. Frame is chrome plated after all welding is completed.

Chrome Inserts: .995" diameter, nickel/chrome plated 16ga tubing with punched holes to receive adjusting screws. Leg adjustment uses two self-tapping locking screws which pass completely through both upper leg and lower insert.

Standard Chrome Finish: Chrome is comprised of metal layers (Nickel & Chromium) electrostatically bonded to metal. Our standard is 4-6 mills (25%-50% more than our competitors) of Nickel. Hard-Chrome will not scratch. CASS test per ASTM B 368 - 22 hours harsh tested before rust. Our product is chromed on plateable quality tubing after all welding is completed.

Swivel: Heavy Duty, Ball-Bearing swivel is welded to understructure and texture powder-coated as an integral unit. Upper is lock-bolted to chrome frame at four points.

Glide System: Glide attachment will be a standard internal gripping spring steel umbrella at least 5/8" diameter or larger. The glide will have a ferrule. Glide casing and ferrule shall be constructed of durable case hardened steel; no plastic. The glide will be of full swivel design, silent and firm fitting for positive attachment and retention. All glides must make full level contact with the floor and the maximum swivel angle of the glide shall not be violated. Incorporating our exclusive glide button system available in either nylon, neoprene, steel, or wool felt bottom. Pick the right base for the floor surface. Snap on a new base for surface change or wear replacement.

Legacy™ Seat & Back: 5/8" thick posture contoured solid molded thermoset plastic with smooth molded edges and permanent color throughout thickness. Seat size is 16" wide x 15-1/2" deep. Back size is 14" wide x 6-1/2" high. Both seat and back are attached through punched holes in tubular frame using self-tapping screws into four uniformly drilled holes.

Millennium™ Seat Shell: One-piece shell is injection molded from special high impact, blush resistant polypropylene plastic with antistatic additive. Textured surface is etched to provide a non-slip surface while assisting in maintaining like-new appearance. Flanged opening in the back adds strength and ventilation. The underside of the shell is molded with an advanced rib pattern transferring weight directly to the frame. Shell size is

15-3/4" wide x 15-1/2" deep. The shell is attached to frame with four concealed machine rivets.

Euroflex™ Shell: Generously sculpted one-piece shell is injection molded from proprietary high impact, blush resistant polypropylene plastic with antistatic additive. Collaborative seat design can be comfortably sat in all four directions. Dual textured surface is etched to provide a non-slip surface while assisting in maintaining like-new appearance. Responsive, active, back encourages proper task position as well as ventilation. Seat back incorporates handle for movement. Innovative design and rib pattern transfers weight to the frame while adding rhythm and movement. Mobility wings in seat provide more surface and grips for movement. Shell design allows inverted stacking on desk for floor maintenance. The shell is attached to frame with four concealed machine rivets. Waterfall front for enhanced circulation. Exclusive dual-stacking design.

Warranty:

- Limited Lifetime Frame Warranty
- Ten Year Comprehensive Warranty

Legacy™ Models:

- 100" x 25"-33" Adjustable Stool

Legacy™ Seat Colors: Navy, Sand, Wine, Slate, Cranberry, Hunter, Black. Optional: Teal.

Millennium™ Models:

- 2100" x 25"-33" Adjustable Stool
- 2100F" x 25"-33" Adjustable Stool fixed position - No Swivel

Euroflex™ Models:

- 3100" x 25"-33" Adjustable Stool
- 3100F" x 25"-33" Adjustable Stool fixed position - No Swivel
